WORK EXPERIENCE

SJU's Office of Information Technology, Philadelphia, PA

Student Technician

06/2024 - Present

- Provide technical support to faculty, staff, and students by troubleshooting hardware, software, and system access issues.
- Train and support student employees on internal IT systems, service workflows, and operational procedures.
- Document recurring technical issues and escalate unresolved incidents to senior IT staff as needed.

JAFF Tax and Accounting Services, Remote

Data Entry Clerk

05/2023 - 08/2023

- Transferred financial and tax data from Excel into accounting software.

PROJECTS

Portfolio Website | React, Tailwind CSS, Framer Motion

- Designed and developed an interactive portfolio website with animated UI elements and responsive frontend architecture.

CardHub | Next.js, React, TypeScript, Tailwind CSS

- Built a real-time multiplayer card gaming platform supporting Blackjack, Poker, UNO, and Baccarat.
- Designed synchronized game state management, betting systems, CPU opponents, and responsive cross-device gameplay.

Amazon Style Web Application | React, Vite, JavaScript, JSON Server

- Built a full-stack Amazon-inspired shopping platform with product pages, search functionality, and reusable React components.
- Implemented CRUD operations, REST API integration, and a persistent shopping cart with quantity controls and backend data storage.

VOLUNTEER

The Center for Animal & Welfare, Easton, PA

03/2022 – 12/2025

- Monitored animals to ensure safe environment, fed and clean cages, and introduced families interested in adoption.
